#YouthMediaLife & Friends

Interdisciplinary research into young
people's mediatised lifeworlds/
Interdisziplinäre Forschung zu
mediatisierten Lebenswelten
Jugendlicher

Susanne Reichl & Ute Smit (Eds.)

This volume showcases interdisciplinary research on young people's media lifeworlds originating from the research platform #YouthMedia-Life at the University of Vienna and its first international conference in 2021. From big questions about our research practices during pandemic times to smaller data sets focusing on specific platforms and historical or geographical particularities, the volume constitutes a diverse collection with a broad thematic heading and, as such, demonstrates the range and scope of this research field. It offers to its readers the opportunity to learn about broader approaches to interdisciplinary research and provides case studies that are very specific in their focus and illustrate irritations and concerns with contemporary media practices.
